

Mandatory Documents for DHA

BPS 028 / 29-06-2026

Dear Parent,

Greetings from Buds Public School!

Dubai Health Authority (DHA) has mandated that all parents submit the updated, duly signed childhood vaccination card along with the student medical form and general consent. If you don't have a copy of the vaccination card/immunisation card then you are required to get a certification from a registered Doctor with the vaccination details. Kindly consider this as urgent and we request you to submit the same by Monday, 31st August 2026.

Please consider the following

1. Kindly provide a recent photograph in School uniform, as this document will be included in the student health file, which is essential according to DHA regulations.
2. Ensure that you provide both a digital copy and a printed copy.
3. The student medical form is a crucial document; please complete it meticulously and inform us of any medical issues (If yes, kindly submit the medical reports). This will enable the School Clinic to offer better care for your child and stay informed about their medical conditions, which will assist us in providing appropriate treatment. Rest assured, this information will be kept confidential.
4. Vaccines are the most cost-effective health care interventions in preventing the spread of contagious, dangerous and deadly diseases. Dubai Health Authority has made it mandatory for all parents to submit the updated duly signed vaccination card (which will be uploaded to HASANA).
5. Students newly admitted for the academic year who have already submitted the aforementioned documents are kindly requested to disregard this circular. This notice is intended for all students, including new admissions, who have not yet submitted the specified forms.

Kindly send all documents requested to the medical department at clinic@budsdxb.ae.

Donald Errol Weilson,
Principal
