

Return to In-Person Classes

BPS 008 / 22-04-2026

Dear Parent,

Greetings from Buds Public School!

As our community begins to move forward towards progressive in-person schooling, we are happy to inform you that Buds Public School will **resume onsite learning for all students from Monday, 27th April 2026.**

The safety and well-being of our students and staff remain our highest priority. In coordination with relevant authorities, we have undertaken thorough inspections of the school premises and ensured that all facilities are secure and fully operational. Additional safety protocols and contingency plans have been reinforced to respond effectively to any evolving circumstances.

We are pleased to announce that we have received the KHDA's approval to start Onsite Teaching and Learning after having worked hard and complied with all their Readiness Protocols and Emergency Training Certifications. We are grateful for the resilience and cooperation shown by our families during this challenging time, and we look ahead with a shared commitment to restoring stability and in-school routines for our students.

Please note that important Internal examinations as well as External Benchmarking Tests are scheduled w.e.f. 1st week of May until the 4th week of June 2026 and it is mandatory that all students must attempt these assessments strictly in person while attending school on the campus.

We also recognize that students may return with a range of emotions following recent events. Our counseling team and teachers are prepared to provide emotional support and create a nurturing environment that allows students to readjust at their own pace.

To support a smooth transition back to school, we kindly request your cooperation with the following:

- Please ensure your child is emotionally and physically ready to return to school.
- Inform the school of any specific concerns or support your child may need.
- Stay updated through official school communication channels for any further instructions.
- Follow the KHDA Onsite School Readiness Guidelines For Parents dated 20th April 2026

We understand that rebuilding a sense of normalcy takes time. Together, as a school community, we will work to provide a safe, supportive, and reassuring environment for every child.

Should you have any questions or require assistance, please feel free to contact the school office.

Thank you for your continued trust and partnership.

Donald Errol Weilson,
Principal
